Hi, Jason.

Just thought I would follow up with more accolades for your terrific performance last Friday night. The kids here continue to talk about and imitate your amazing talents! We were all so very pleased - with your program and with the turnout. We estimated 800-900 in the audience and that is absolutely wonderful - and everyone was laughing and cheering and singing and swaying! It was very, very successful! We are most grateful for your sacrifice to come and for all the extra effort you put in to create a perfect program, tailor-made for our audience!

You have great power in your skills and example and we are appreciative that you are using them for such good! We surely owe you big time! Thank you! Thank you! We hope you felt how much the audience loved your show and that that validation of your efforts is rewarding to you.

Best to you –

Jayne Johnson and all your new fans at the Institute!
