To Whom it May Concern:

This is a letter of recommendation for Jason Hewlett. I have attended two of Jason's shows one of which he performed for our members at The Sundance Leadership Summit. He was a tremendous hit! His act was the highlight of the conference. We asked the members of the Chamber of Commerce to fill out a survey that day to find out what they liked and disliked about the summit and the response was unanimous, Jason was by far everyone's favorite part of the day.

Jason's performance is perfect for everyone. His ability to entertain everyone is unbelievable. He thrills children with his prehistoric impersonation of a Velosarapter, while keeping the young at heart mesmerized by bringing Louis Armstrong back to life on the stage. He is able to captivate the attention of everyone who attends his show. I challenge anyone who takes the opportunity to see Jason perform, to leave without a smile on their face. I highly recommend that if you have the opportunity to book Jason for an event, by all means take it! He is a class act, one that should not be missed!
